**Build a better future
with Etex**

**A career with us will
help you to learn, grow
and lead as we look to
build a better world.**

Discover more about Etex here: www.etexgroup.com

Are you ready to be inspired?

- The future of our business is you; we are looking talented individuals with an entrepreneurial mindset to join our team.
- The Future Talent Programme is for two years, with four six-month assignments.
- You will have the opportunity to gain first-hand experience and help solve global challenges, while being mentored by some of our best leaders.
- You will gain valuable insights and learnings from our teams as you look to build your future career with us.

What you will do:

- Lead small-scale projects and work on large projects across our global sites.
- Contribute to process improvement, system optimisation and business efficiency, learning from experienced teams on site.

What we ask of you:

- Master Degree in Business Management, Engineering or related discipline.
- An entrepreneurial mindset and a proactive approach.
- Fluency in English; any additional languages are advantageous.
- Willingness to travel and be internationally mobile.
- You are based in Europe and have the legal right to work in Europe.
- Understanding of Project Management principles.
- A valid European driving licence.
